## PROJECTS

### • Tic-Tac-Toe Game

The project involves creating a user-friendly interface where two players can take turns placing their respective markers (X and O) on a 3x3 grid. The objective of the game is for a player to align three of their markers in a horizontal, vertical, or diagonal row before their opponent does.

### • To Do List App

- Developed a responsive and interactive to-do list application using React.js.
- Implemented core functionalities including task creation, editing, deletion, and completion.
- Utilized local storage to ensure tasks persist between sessions, enhancing user experience.
- Added advanced features such as task prioritization, due dates, and search functionality to improve usability.
- Followed best practices in code structure, version control (Git), and responsive design to ensure maintainability and scalability.

## EXPERIENCE

APTRON INTERN - 06/2022 08/2022  
Lucknow, India (Remote)

- Supported staff members in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments.
- Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.
- Gained hands-on experience in various software programs, increasing proficiency and expanding technical skill set.
- Developed organizational skills through managing multiple tasks simultaneously while adhering to strict deadlines.
